

WOOD'S POWR-GRIP'S HYBRID CUPS COMBINE THE BEST FEATURES OF OUR POPULAR METAL HANDLE WITH OUR ABS PLUNGER TO CREATE LESS EXPENSIVE VACUUM CUPS!

Powr-Grip has taken the lightweight and rust resistant plunger from our ABS cup and paired it with our rugged and durable metal handle. The result is a reliable and more economical vacuum cup.

Specifications:

N4300

- Vacuum Pad: Flat, 8" [204 mm] diameter (model G0695)
- Load Capacity: 125 lbs. [57 kg] per cup

N5300

- Vacuum Pad: Flat, 9" [229 mm] diameter (model G0725)
- Load Capacity: 150 lbs. [68 kg] per cup

N6300 (Designed for use with curved surfaces. Do not use for thin, fragile materials.)

- Vacuum Pad: Concave, 10" [254 mm] diameter (model G0750)
- Load Capacity: 175 lbs. [79 kg] per cup

Features:

- Durable metal handle.
- Economical ABS plunger.
- Fast attachment on smooth, nonporous flat surfaces.
- Red-line indicator warns user of any vacuum loss.
- Check valve allows repumping without loss of remaining vacuum.
- Release valve lever permits quick and complete release.
- Eligible for Powr-Grip Exchange Program.
- Supplied with protective carrying case.
- One year Limited Warranty.
- Easy access to parts and service.
- Toll-free technical support.

WHY WOOD'S POWR-GRIP PRODUCTS?

A Company Dedicated to Continued Product Quality

Built into every Wood's Powr-Grip product is a little bit of something you can't see... the pride and dedication of skilled people who understand the importance of quality and safety in the products they produce. It's the people behind the scenes at Wood's Powr-Grip, the welders, machinists, engineers and office workers, who have helped achieve a standard of excellence in vacuum-attaching tools and equipment... people doing their best to bring you the finest materials handling and mounting products in the world. Wood's Powr-Grip's quality goals are to involve every worker in quality assurance, improve customer satisfaction, provide products that consistently meet all relevant quality standards, and continuously improve product safety.

ISO 9001 Certification

Wood's Powr-Grip became an ISO 9001 certified company in April of 1998. ISO is the International Organization for Standardization, a nongovernmental entity that promotes worldwide industry agreements on effective quality management and publishes them as international standards. ISO 9001 Certification applies to organizations that design, manufacture and distribute their own products. In order to earn and maintain certification, companies must document and consistently follow quality procedures for all jobs relating to customer service and the manufacturing process. Compliance with the standard is completely voluntary and is verified by independent auditors.
